Harshan

ASPIRING DATA SCIENTIST

CONTACT

Phone: +91 7639427744 **Address**: Trichy, Tamil Nadu, India
Email: harsh.dev.k1@gamil.com **Portfolio**: https://harshan2005.github.io/My-protfolio/

SUMMARY

Aspiring Data Scientist with a strong foundation in machine learning and data analytics. Skilled in building predictive models, working with Python and SQL, and handling structured and unstructured data. Experienced in data visualization using Power BI and Tableau, with a focus on delivering data-driven insights for decision-making.

PROFESSIONAL EXPERIENCE

Data Science Intern | May 2025 – June 2025 **Coimbatore**

Nxtlogic Software Solutions

- Developed data-driven solutions for workflow automation using machine learning and AI techniques.
- Built and optimized data pipelines using Python, SQL, and Apache Spark for large-scale data processing.
- Applied LLMs and OCR methods to extract insights from unstructured text and document images.
- Designed, trained, and evaluated machine learning models using metrics such as Accuracy, F1-score, AUC, and RMSE.

Data Analyst Intern | Apr 2024 – Jun 2024 **Coimbatore**

Net Tel Solutions India Pvt Ltd

- Developed predictive models on 100+ restaurant datasets to analyze and forecast customer retention trends.
- Performed data cleaning and preprocessing, improving data quality by handling ~95% of raw, unstructured data.
- Utilized Power BI and Tableau to design interactive dashboards, enabling data-driven strategic decision-making.
- Applied machine learning techniques and advanced feature engineering, increasing model accuracy by 15%.

PROJECT

Handwritten Digit Recognition (Python, Machine Learning, TensorFlow)

- Demonstrated handwritten digit recognition using the MNIST dataset (60,000 training, 10,000 testing images).
- Preprocessed grayscale images of size 28×28 pixels and applied ML techniques.
- Trained models to accurately classify digits from 0 to 9, showcasing practical ML implementation.

Object Detection Web App (JavaScript, TensorFlow.js)

- Improved object detection speed by 88.06% by developing a real-time web app using JavaScript and TensorFlow.js in VS Code
- Integrated webcam input to capture live video for object detection.
- Utilized pre-trained models like COCO-SSD for accurate object identification.
- Optimized performance for smooth, responsive detection across various devices.

EDUCATION

Karpagam Academy of Higher Education | 2023 - Present
Bachelor of Technology, Artificial Intelligence And Data Science
- GPA: 8.45

Sowdambikaa Group of Schools | 2022 - 2023
Sowdambikaa Group of Schools
- Grade : 75%

SKILLS

- **Programming Languages:** Python, C++, SQL, HTML, CSS, JavaScript
- **Concepts:** OOP, Data Structures & Algorithms, Probability & Statistics
- **Libraries & Frameworks:** NumPy, Pandas, TensorFlow, React.js
- **Tools & Platforms:** Git, GitHub, AWS Cloud

CERTIFICATES

Infosys - Certifications
- Python foundation
- Artificial foundation
- Generative Ai

Nxtwave - Course Certification
- Full Stack Course

AWS Cloud - Certification
- AWS Cloud foundation

DECLARATION

I confirm that the information provided is accurate to the best of my knowledge.
